

PAULDING COUNTY COMMISSIONERS

451 McDonald Pike- Suite E · Paulding, Ohio 45879

December 1, 2022

As you are all well aware, we are all experiencing higher prices due to inflation. The Auglaize River Sewer District has also seen major increases in the cost of operations. Costs to make needed repairs and treatments at our combined Paulding/Defiance County lagoon have continued to rise.

Although the Paulding County Board of Commissioners made changes earlier in the year, these savings are unfortunately not able to offset the additional expenses we are incurring any longer.

We have been fortunate since our inception in 2012 with the ability to hold rates steady. But after much discussion and careful consideration, the Paulding County Board of Commissioners are announcing a rate increase of 5%, to help pay for the increasing costs of operations.

You will see this monthly rate increase reflected on your January invoice. The changes are as follows:

Regular - \$57.75

Untap - \$38.85

Campground- \$43.31

Thank you,

Paulding County Board of Commissioners

Roy Klopfenstein, Chairman

Michael Weible

Mark Holtsberry
